Abstract

The two longest Bands of all time Coldplay and Metallica. Comparing these two bands on longevity and musical progression

Keywords:

music\

JEL classification L250, L100

1. Introduction

In this report i will be looking at the two most famous bands of all time that being coldplay and Metallica. i will be looking at a variety of analysis to come the two bands. First i will be

looking at Coldplay then Metallica.

Coldplay

The first thing is i will be looking at when coldplay become popular.

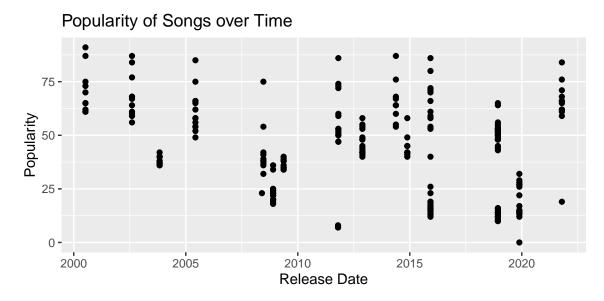

Figure 1.1: Popularity of Songs

It is clear from this that from the time coldplay came into the scene they where popular already, however during the early 2010s that is when there popularity became prominant this could be because of certain songs they released.

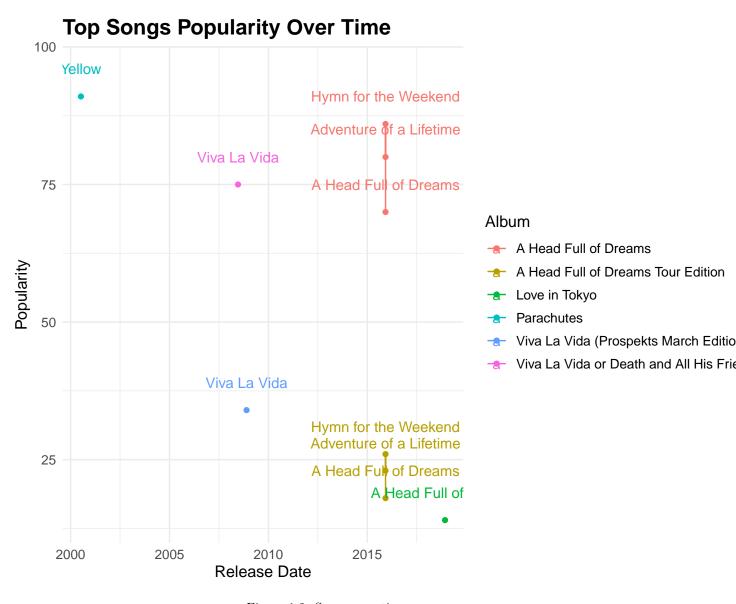

Figure 1.2: Songs over time

It is clear from 1.2 that they really hit there stride in the late 2010s as twice in in one album they had 3 top songs

Next looking at there correlation matrix to assess certain apsects of there music

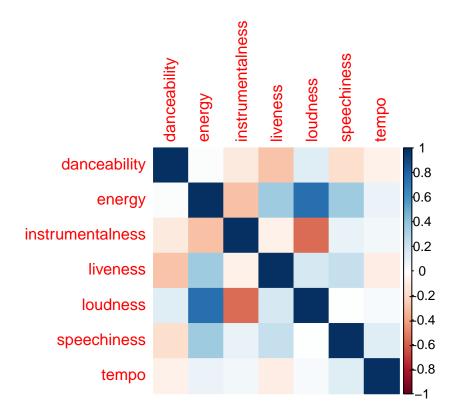

Figure 1.3: Correlation matrix

## 2. Mettallica

Next i will be looking at Mettallica. they also have been a very long perfroming band. Though it must be noted that they do perform different music to that of coldplay.

I once again will be looking at the scatter plot to see there popularity

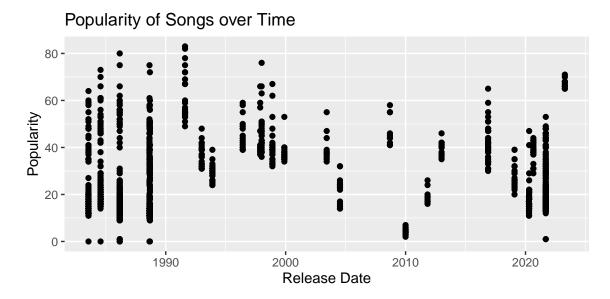

Figure 2.1: Popularity of Songs

It is clear that methalica where he most popular during the late 1980s. However they appeared to be less popular between 2000 and 2010 however they started gaining moment in early 2020s.

Next i will also be looking at the most popular songs

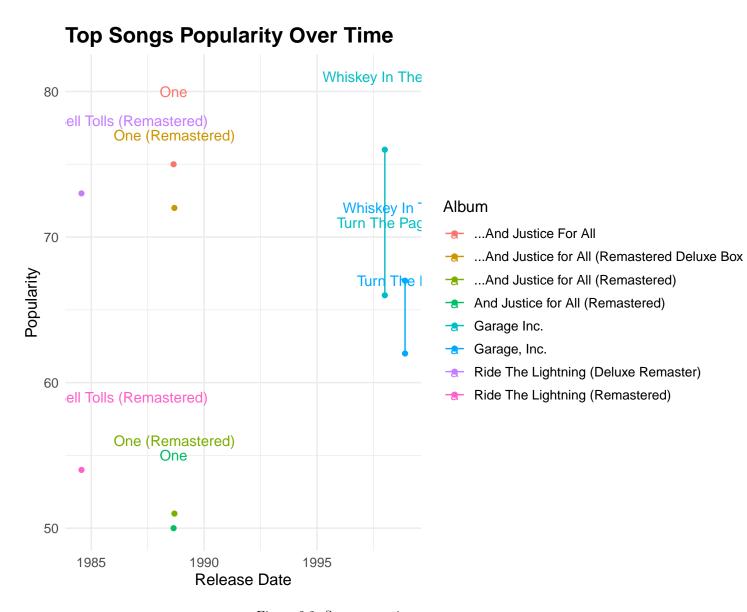

Figure 2.2: Songs over time

## [42] "Six Feet Down Under"
```

It can be seen they they clearly peaked in the late 1990s

lastly i will be looking at the correlation matrix for metallica

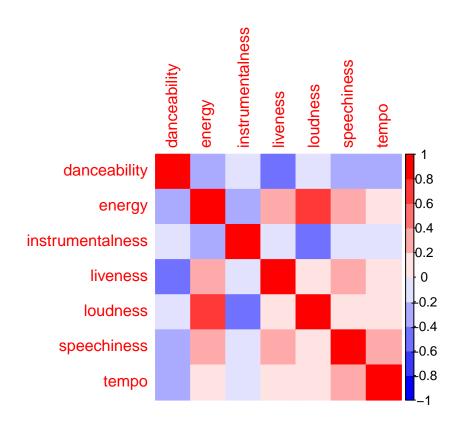

Figure 2.3: Correlation matrix

Now if we had to look at the song duration between coldplay and mettallica

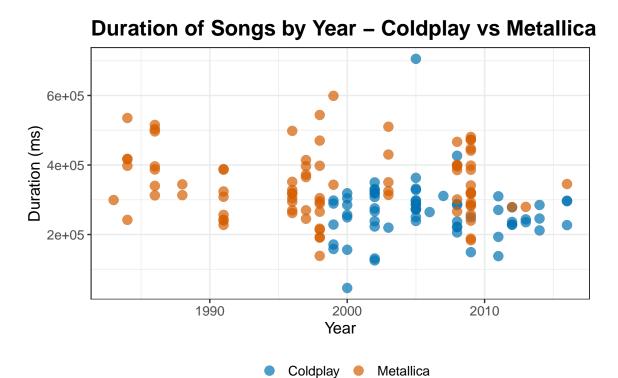

Figure 2.4: Song Duration

## 3. Extra

Next I want to analyse the different genres i how much energy the produce

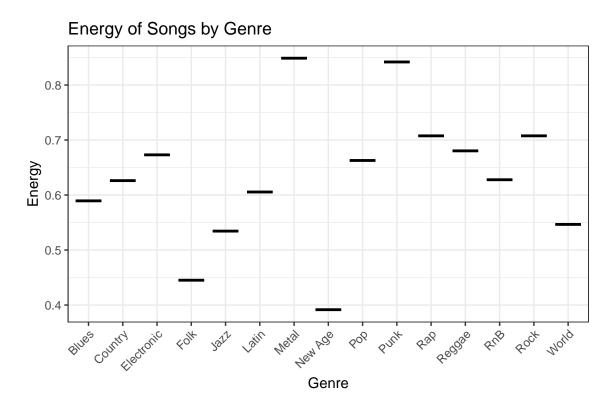

Figure 3.1: Engergy per Genre

It is clear from this that metal and punk will give you the most energy
